SUMMARY

As a recent graduate from Daffodil International University with a degree in Computer Science, I have honed my skills in C, C++, and JavaScript. My passion lies in web development, where I excel in using HTML, CSS, React.js, and Express.js. Additionally, I have practical experience in database management with MySQL and Firebase. I have tackled many Data Structures and Algorithms questions on various coding platforms.

EDUCATION

Daffodil International University
B.S. in Computer Science and Engineering

Dhaka, BD
CGPA - 3.36

PROJECTS

Chat App

[Live](#) – [GitHub](#)

Web Development Project

React.js, Firebase, Tailwind, React Router

- Developed a responsive Chat App using React.js with efficient React Routing for seamless page navigation.
- Integrated Firebase Firestore for scalable data storage, ensuring real-time synchronization of messages.
- Implemented Firebase Auth to secure user authentication, ensuring robust data privacy and access control mechanisms.
- Key Feature: Real-time messaging functionality for seamless user communication.

Recipe App

[Live](#) – [GitHub](#)

Web Development Project

Next.js, Tailwind and Firebase.

- Real-time collaboration and data storage using Firestore.
- Seamless user authentication for sign-up, log-in, and personalization.
- Key features: create, update, delete, and view recipes with real-time ingredient-based filtering.

Weather App

[Live](#) – [GitHub](#)

Web Development Project

React.js, Tailwind, OpenWeather API, Redux Toolkit

- Integrated the OpenWeather API for real-time, accurate weather data.
- Utilized geolocation to provide personalized weather updates.
- Implemented live weather search and forecasts.
- Key Feature: Dynamic weather info and forecasts based on user location or search.

Portfolio Website

[Live](#) – [GitHub](#)

Web Development Project

React.js, Tailwind, Framer Motion

- Curated a portfolio showcasing diverse web development projects.
- Highlighted technical skills, creativity.
- Integrated social links for networking and collaboration.

TECHNICAL SKILLS

Languages: C/C++, JavaScript, HTML, CSS

Libraries & Tools: React.js, Framer Motion, ReactDevTools, VS Code, Git, GitHub

Frameworks: Next.js, TailwindCSS

Clouds/Databases: Firebase, Firestore
